

REMARKS

In response to the Office Action of June 1, 2006, Applicant has amended the claims of the application to distinguish both from the references cited by the Examiner and the references cited by the Applicant in his Information Disclosure Statement filed on June 19, 2006. Applicant is filing with this Amendment a request for an extension of time of three months to respond to the Office Action along with the required extension fee.

Claim 1 of the application has been amended to call for two pre-tanks 10, 12, each of which is provided with an inlet 14, 16. Each inlet has its own shut off valve 20, 22. Each pre-tank is provided with its own outlet 28, 30 and each outlet is equipped with its own shut off valve 42, 44. This structure, which is not taught or suggested by the prior references, enables one pre-tank to be serviced while the other remains in operation. The remaining claims of the application are dependent from claim 1 and, therefore, are also allowable for the same reason.

For the foregoing reasons and consideration, an allowance of the amended claims of this application is requested.

Respectfully submitted,

/edward m. keating/
